HOSPITAL MANAGEMENT INFORMATION SYSTEMS

TRUSTED BY
LEADING HOSPITALS
SINCE 1996

THE CHANGING FACE OF HEALTHCARE

Globally the healthcare industry is facing sweeping changes and Information Technology must come up with solutions that will enable healthcare providers to cope with and leverage the winds of change.

COMPLETE SOLUTIONS FOR HEALTHCARE IT

SOFSCRIPT is a leading provider of Healthcare Software Solutions. Our CAREWORKS™ HMIS has been a resounding success across prestigious Hospitals and Laboratories. Needless to mention that our HMIS has been installed covering more than 12000 beds across India.

Many Hospitals are using our HMIS for more than 10 years earning our products the tag of being "complete" and "reliable".

SOFSCRIPT's CAREWORKS™ HMIS is also actively considered by Hospitals in replacing imperfect systems or failed implementations.

INTEGRATED DELIVERY NETWORKS

Government Institutions and the various private sector providers must collaborate, to provide new levels of healthcare. They must drive costs down, while improving quality of healthcare. MEDICAL TOURISM is an emerging face of global healthcare delivery.

BUSINESS PROCESS IMPROVEMENT

Increased complexity must simultaneously be accompanied by reduction in cycle time and costs. Standard Procedures must be adopted and Doctors must be alerted in real-time

THE SOFSCRIPT VALUE PROPOSITION

Giving you a full range of product as well as implementation services which can effectively weave Business Processes with Information Technology.

CAREWORKS™ HMIS Hospital Management Information System

CAREWORKS™ HMIS is the most trusted Hospital Management Information (HMIS), for large multi-specialty and super-specialty hospitals. We offer a range of CAREWORKS™ HMIS products based on the size of the hospital.

IMPLEMENTATION OF HOSPITAL MANAGEMENT INFORMATION SYSTEMS

CAREWORKS™ Hospital Management Information System and CARE-at-WORKS Laboratory Information System are standard and proven products with end to end coverage of all areas. Get full advantage of new technologies with CAREWORKS™. Being scalable, it can grow with your Hospital. Being reliable, you will get years and years of usage.

SOFSCRIPT's models for integration also give you several options to choose from:

- Medical devices and lab equipment with proprietary interfaces
- New user interfaces
- HL7 – to integrate internal processes with the global environment.
- PACS / DICOM
- Wireless technologies
- Automation
- Integrate with other systems

PREMIUM Suite

Ideal for secondary and multi-specialty Hospitals with 80-250 beds. This fully scalable enterprise system addresses all your needs in running a Hospital with standard practices. At your choice, you can enhance the experience with additional modules and powerful mobile applications. You can also choose to host it on cloud.

TERTIARY Suite

For multi-specialty & super-specialty Hospitals with 250-2500 beds. This fully scalable enterprise system addresses all your needs in running a large Hospital with standard procedures and business rules. Powerful mobile applications and interfaces with PACS drive the system to give you complete control.

PRIMARY CCM

For primary care Hospitals, Nursing Homes with up to 80 beds. This fully scalable product addresses all your needs in running a Hospital with standard practices. This product is offered as a Cloud Computing Model (CCM).

CAREWORKS™ LIS

A state-of-the-art LIS for Medical Laboratories of Hospitals or Corporates across geographical regions. CAREWORKS™ LIS also comes with an HL7 interface for third party HIS.
